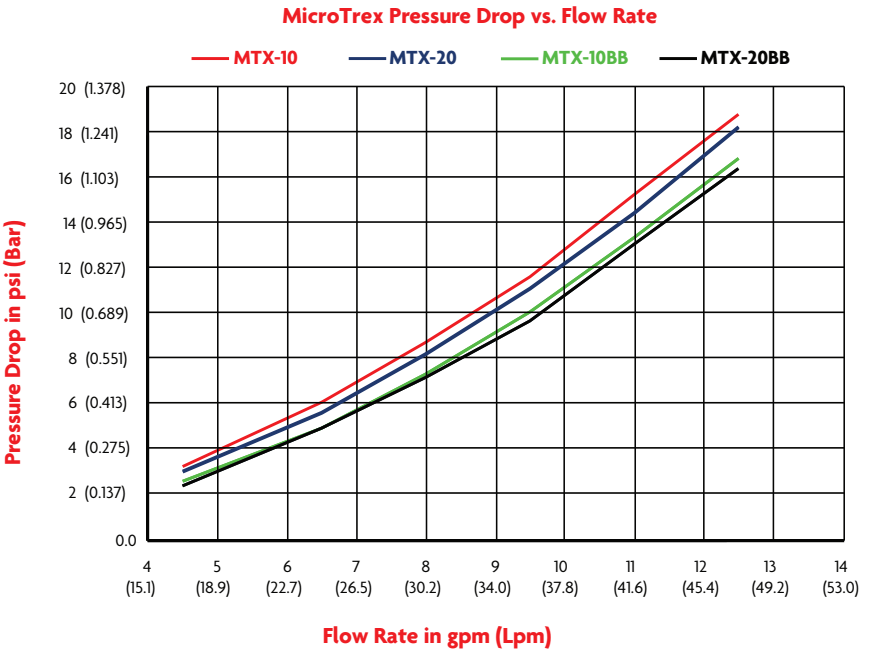
MicroTrex™ Sediment Depth Cartridges

MicroTrex offers you an economical pre-filtration solution for a variety of applications. Especially design for RO systems. They are constructed of polypropylene microfibers ensuring high filtration efficiency and they do not impart taste or odor making them ideal for food and beverage applications. Additionally, polypropylene is naturally bacteria and chemical resistant.



Data shown reflects the performance of 10" cartridges. 20" cartridge pressure drops can be estimated by dividing the psi above by 2, 3 and 4 respectively at the same flow rate.

MicroTrex™ Sediment Depth Cartridges

MicroTrex offer a multilayer of concentric micron filtration. The periphery of the filter captures the larger particles while the inner layers formed of more compact fibers capture the smaller particles. Effectively working to remove debris from water to prepare for the next stage of filtration

Item Number	Description	Micron Rating*	Case Quantity	Weight (lbs)
MTX-10-01	2.5" X 9 7/8"	1	50	14
MTX-10-05		5	50	14
MTX-10-10		10	50	14
MTX-10-25		25	50	14
MTX-10-50		50	50	14
MTX-20-01	2.5" X 20"	1	25	14
